BACKGROUND OF THE INVENTION

This device was invented to remove objects from a ponds and pools without requiring a diver or drainage of the pond or pool.

BRIEF SUMMARY OF THE INVENTION

This portable device uses a gasoline powered high pressure pump and venturi system to siphon golf balls and other debris from the bottom of a pond or pool and deposit said items into a holding tank while returning water to original location. No diver is required, as an operator manipulates suction hose on a long pole.

BRIEF DESCRIPTION OF THE SEVERAL VIEWS OF THE DRAWING
